LGBTQ+ Legal Access Project

**Free Legal Services for
LGBTQ+ Survivors of Violence**

A Partnership and Project Of:

Safe To Be You!

Safe To Be You!

About Us: Safe To Be You! project partners have joined together to make sure LGBTQ+ survivors of domestic violence, sexual assault, dating violence and stalking can access civil legal assistance wherever they are in New Mexico. Project staff are dedicated to providing free civil legal services – legal advice, referrals and/or full attorney representation in court – to address the broad range of legal needs within the LGBTQ+ community.

All communications are free and confidential. A lawyer can help you understand your options. Reaching out does not mean you have to take action or go to court, only that by knowing more about your rights and choices, you can make better informed decisions. The choices are always yours to make. We can help you with legal problems ranging from housing and healthcare to education, employment, family law, and civil rights.

What is Abuse?

Abuse does not mean the occasional argument every once in a while, which happens in all relationships, gay or straight. Abuse is a pattern of harmful and controlling behavior that someone uses against a significant other, intimate partner, or household member. Dating abuse, stalking, sexual assault, and domestic violence are all about power and control, and can include both coercive behavior, in addition to physical abuse.
